Micronet Enertec Reports Third Quarter 2017 Financial Results

- **A Record backlog of \$20.5M**
- **Revenue increased by 29% to \$6.9M in Q3 2017 as compared to \$5.4M in Q3 2016**
- **Gross Profit grew to 23% in Q3 as compared to 14% in Q2**
- **2017 yearly revenue estimates remain \$25M-\$28M**
- *Conference call scheduled for today, November 20 at 9:00 AM ET*

Montvale, NJ, November 20, 2017 -Micronet Enertec Technologies, Inc. (NASDAQCM: MICT), a developer and manufacturer of rugged computers, tablets and computer-based systems for the commercial Mobile Resource Management (MRM) market and for the Aerospace and Defense (A&D) markets, today announced financial results for the third quarter and nine months ended September 30, 2017.

“We are extremely pleased to see the growing backlog and we believe this demonstrates the market’s acceptance of our advanced technology and solutions,” said David Lucatz, Chief Executive Officer of MICT. “Our Backlog at the end of Q3 stands at \$20.5 million and continues to grow and drive revenue growth. This growth is mainly driven by Micronet, our MRM subsidiary. We continue to experience strong demand from the MRM market and we believe that this is mainly attributed to the implementation of the Electronic Logging Device (ELD) mandate and Micronet’s ability to introduce advanced products and solutions at competitive prices. The MRM Division has a strong future pipeline and a growing number of customers are evaluating its new products in the field. Based on our backlog and forecasts, we maintain our previous guidance of \$25 million to \$28 million in revenue for 2017. Micronet also experienced an improvement in profitability and Q3 EBIDTA was close to breakeven,” stated David Lucatz, Chief Executive Officer of Micronet Enertec Technologies.

In Q3, MICT continued to implement its strategy to combine additional Software-as-a-Service (SaaS) components in its product offerings. Micronet's Guardian System Design (GSD) is a cloud based SaaS platform, which enables remote management of Micronet's products while on the move via Firmware Over the Air (FOTA) updates. The GSD license has started generating recurring yearly revenues which we believe will improve gross margins and customer retention.

Third Quarter 2017 Review

- Total revenue increased by 29% to \$6.93 million for the third quarter of 2017 as compared to \$5.35 million in Q3 2016.
- Gross profit margin for the 3rd quarter of 2017 was 23%, as compared to 14% in the prior quarter and 20% in the 3rd quarter of 2016.
- Research and development (R&D) expense for the third quarter of 2017 was \$676,000, or 10% of sales, as compared to \$476,000, or 9% of sales, in the thirdquarter of 2016.
- Selling, General and Administrative (SG&A) expense was \$1.86 million, or 27% of sales, as compared to \$1.86 million, or 35% of sales, in the third quarter of 2016.
- Net loss attributable to MICT for the third quarter of 2017 was \$1.30 million, or (\$0.18) per basic and diluted share, as compare to the net loss of \$1.29 million, or (\$0.22) per basic and diluted share, for the third quarter of 2016.
- Non-GAAP net loss for the third quarter of 2017 was \$1.13 million, or (\$0.16) per basic and diluted share, as compared to \$1.06 million, or (\$0.17) per basic and diluted share, for the third quarter of 2016. A reconciliation of GAAP to non-GAAP net loss and loss per share is provided in the table at the end of this press release.
- The Company reported a loss from operations of \$1.24 million for the third quarter of 2017, as compared to a loss of \$1.51 million in the third quarter of 2016 and a loss of \$1.7 million in the second quarter of 2017.
- At September 30, 2017, the Company reported cash totaling \$9.2 million and working capital of \$4.7 million.

First Nine Months 2017 Review

- Total revenue was \$18.11 million for the first nine months of 2017, as compared to \$18.56 million in the first nine months of 2016.
- Gross profit margin was 17% in the first nine months of 2017, as compared to 25% in the first nine months of 2016. The decrease in overall gross margin was related to an increase in cost associated with the introduction of a new line of products and low profit projects in the A&D division.
- R&D expense for the first nine months of 2017 was \$1.81 million, or 10% of sales, compared to \$1.86 million, or 10% of sales, in the first nine months of 2016.
- SG&A expense was \$5.62 million in the first nine months of 2017, as compared to \$5.35 million in first nine months of 2016. For the first nine months of 2017 this represented 31% of sales, as compared to 28% of sales in the same period in 2016.

- Net loss attributable to Micronet Enertec Technologies, Inc. for the first nine months of 2017 was \$4.24 million, or (\$0.63) per basic and diluted share, a 49% increase compared to a net loss of \$2.84 million, or (\$0.48) per basic and diluted share, for the first nine months of 2016. Non-GAAP net loss for the first nine months of 2017 was \$3.78 million, or (\$0.56) per basic and diluted share, as compared to \$2.14 million, or (\$0.36) per basic and diluted share, for the first nine months of 2016. A reconciliation of GAAP to non-GAAP net loss and loss per share is provided in the table at the end of this press release.
- The Company reported a loss from operations of \$5.07 million for the first nine months of 2017, as compared a loss of \$3.20 million in the first nine months of 2016.

Recent Developments

During the third quarter of 2017, we appointed Mr. David Markus as the new Chief Executive Officer of Micronet Ltd. Mr. Markus previously served as the Chief Technology Officer at Pointer Telocation - a global MRM company, where he built and managed the company's R&D group and was also responsible for the company's products strategy, customer support and information technology. He brings deep knowledge in technology, strategy and business development in the MRM space and will lead the fast-paced growth at Micronet.

In addition, we continue to experience the strong and growing demand to our products including our new products and we were able to receive few significant orders:

- \$1,600,000 purchase order for the TREQ®-317 from a current customer, a global fleet management provider.
- \$4,300,000 purchase order for TREQr-5/Smart Hub received from a current customer, marking the largest order at Micronet since 2012.
- \$1,650,000 purchase order, a follow on order from the same customer for the TREQr-5/Smart-Hub.
- In October, a \$3,100,000 purchase order for the TREQr-5/Smart Hub, including \$100,000 annual recurring revenue license.
- In November, a \$1,900,000 purchase order for the TREQ-317 from current customer a leading U.S. telematics service provider.

Conference Call

Micronet Enertec will host a conference call today at 9:00 a.m. ET to discuss the Company's financial results for the third quarter ended September 30, 2017. The conference call number for U.S. based callers is 1-888-407-2553. Callers from outside of the U.S. should dial 972-3-918-0691. A slide presentation accompanying management's remarks can be accessed at www.micronet-enertec.com

Participants may also access a live webcast of the conference call through the Investor Relations section of Micronet Enertec's website at: www.veidan-stream.com/micronetq32017.html

A telephone replay of the call will be available for two weeks at: 1-888-269-0005, outside of the U.S.: 972-3-3-925-5904.

About Micronet Enertec Technologies, Inc.

Micronet Enertec Technologies, Inc. (NASDAQCM: MICT) operates through two primary companies, Enertec Systems 2001 Ltd, its wholly-owned subsidiary, and Micronet Ltd, in which it has a controlling interest. Micronet operates in the growing commercial MRM market, mainly in the United States. Micronet designs, develops, manufactures and sells rugged mobile computing devices that provide fleet operators and field workforces with computing solutions in challenging work environments. Enertec operates in the A&D markets and designs, develops, manufactures and supplies various customized military computer-based systems for missile defense systems, command and control and others. The Company's products, solutions and services are designed to perform in severe environments and battlefield conditions. For more information please visit: www.micronet-enertec.com, the content of which is not incorporated by reference into this press release.

Forward-looking Statements

This press release contains express or implied forward-looking statements within the Private Securities Litigation Reform Act of 1995 and other U.S. Federal securities laws. These forward-looking statements include, but are not limited to, those statements regarding our belief that growing backlog demonstrates the market's acceptance of our advanced technology and solutions, the continued growth of our backlog, our guidance for revenues for 2017, our belief that our GDS licenses which have started generating recurring yearly revenues will improve gross margins and customer retention and our belief that Micronet will achieve positive EBITDA in Q4 of 2017. The forward-looking statements contained in this press release are subject to other risks and uncertainties, including those discussed in the "Risk Factors" section and elsewhere in the Company's Annual Report on Form 10-K for the year ended December 31, 2016 and in subsequent filings with the Securities and Exchange Commission. Except as otherwise required by law, the Company is under no obligation to (and expressly disclaims any such obligation to) update or alter its forward-looking statements whether as a result of new information, future events or otherwise.

Non-GAAP Financial Measures

In addition to providing financial measurements based on generally accepted accounting principles in the United States of America, or GAAP, we provide additional financial metrics that are not prepared in accordance with GAAP, or non-GAAP financial measures. Management uses non-GAAP financial measures, in addition to GAAP financial measures, to understand and compare operating results across accounting periods, for financial and operational decision making, for planning and forecasting purposes and to evaluate our financial performance.

Management believes that these non-GAAP financial measures reflect our ongoing business in a manner that allows for meaningful comparisons and analysis of trends in our business, as they exclude expenses and gains that are not reflective of our ongoing operating results. Management also believes that these non-GAAP financial measures provide useful information to investors in understanding and evaluating our operating results and future prospects in the same manner as management and in comparing financial results across accounting periods and to those of peer companies.

The non-GAAP financial measures do not replace the presentation of our GAAP financial results and should only be used as a supplement to, not as a substitute for, our financial results presented in accordance with GAAP.

The non-GAAP adjustments, and the basis for excluding them from non-GAAP financial measures, are outlined below:

- **Amortization of acquired intangible assets** - We are required to amortize the intangible assets, included in our GAAP financial statements, related to our acquisition of Micronet in 2012 and the Vehicle Business of Beijer in 2014. The amount of an acquisition's purchase price allocated to intangible assets and term of its related amortization are unique to these transactions. The amortization of acquired intangible assets are non-cash charges. We believe that such charges do not reflect our operational performance. Therefore, we exclude amortization of acquired intangible assets to provide investors with a consistent basis for comparing pre- and post-transaction operating results.
- **Stock-based compensation** - Stock based compensation consists of share based awards granted to certain individuals. They are non-cash and affected by our historical stock prices which are irrelevant to forward-looking analyses and are not necessarily linked to our operational performance.
- **Amortization of note discount** - These expenses are non-cash and are related to amortization of discount of the note purchase agreements with YA II. Such expenses do not reflect our on-going operations.

The following table reconciles, for the periods presented, GAAP net loss attributable to Micronet Enertec to non-GAAP net loss attributable to Micronet Enertec and GAAP loss per diluted share attributable to Micronet Enertec to non-GAAP net loss per diluted share attributable to Micronet Enertec:

	Nine months ended

3Q 17 Financial Results
Conference Call

This presentation contains express or implied forward-looking statements within the Private Securities Litigation Reform Act of 1995 and other U.S. federal securities laws. These forward-looking statements include, but are not limited to, those statements regarding our belief that Micronet will keep improving EBITDA in Q4 of 2017, Enertec's efficiency measures which will support the company's long term profitability, our expectation relating to the receipt of potential orders resulting from the Teaming Agreement with an Indian Aerospace & Defense company, increased volumes and demand in the markets in which we operate, our product offerings and future market opportunities, expected new opportunities and anticipated orders and growth resulting from the local fleet market and ELD mandate. Such forward-looking statements and their implications involve known and unknown risks, uncertainties and other factors that may cause actual results or performance to differ materially from those projected. The forward-looking statements contained in this presentation are subject to other risks and uncertainties, including those discussed in the "Risk Factors" section and elsewhere in the Company's annual report on Form 10-K for the year ended December 31, 2016 and in subsequent filings with the Securities and Exchange Commission. Except as otherwise required by law, the Company is under no obligation to (and expressly disclaims any such obligation to) update or alter its forward-looking statements whether as a result of new information, future events or otherwise.

- Micronet delivering in line with our expectations and is projected to meet its annual target for 2017
- Revenues in Q3 increased to \$6.9 million, a 29% increase over Q3 of 2016 and a 17% increase sequentially
- Combined backlog of \$20.5 million as of September 30, 2017, a significant growth as compared Q3 2016
- Backlog of \$11.5 million for Micronet, driven by contracts for Micronet's new MRM products including the TREQ®-317 and TREQr5
- Micronet revenues grew by 50% over Q3 of 2016 and 45% sequentially
- Micronet's EBIDTA for Q3 was close to breakeven and we expect Micronet will keep improving EBIDTA in Q4 of 2017
- Micronet received more than \$7.55 million in orders in Q3 and an additional \$ 5 million orders in October and November
- Till today, Micronet has signed \$350,000 worth of Software as a Services (SaaS) contracts, which expected to produce high margin recurring revenues; \$100,000 of this was in Q3
- Demand expected to continue to grow as electronic logging device (ELD) mandate requirement deadline nears and additional new MRM products are introduced by Micronet
- Enertec continues to experience demand and operates to regain its growth position

- Expect additional orders in 2017 pursuant to implementation of final 1st stage ELD mandate
- Strong pipeline with growing amount of customers evaluating products in the field
- TREQ®-317
 - \$1,600,000 purchase order from a current customer, a global fleet management provider
 - \$1,900,000 purchase order from a current customer
- TREQr-5/Smart-Hub
 - \$4,300,000 purchase order for TREQr-5 received from current strategic customer; Largest order at Micronet since 2012
 - \$1,650,000 purchase order, a follow on order from the same customer
 - \$3,100,000 purchase order, including \$100,000 annual recurring revenue license in October

- \$650,000 contract from a Fortune 500 medical device company to develop and produce fully automated testing systems for medical calibration devices
- During Q3 2017 awarded two purchase orders for an aggregate amount of \$1,200,000 from a current customer, a large global Aerospace & Defense contractor
- Enertec's expertise in precision automatic testing equipment systems utilized into medical device industry

Trends

MRM

- Increasing numbers of purchase orders in the multi billion MRM market are being placed both by new and existing customers, emphasize the strong customer satisfaction with Micronet's products
- New SaaS offering expected to generate high margin, annually recurring licensing revenues
- Micronet's new rugged on-board computing products create strong value for customers
- MRM devices enhance efficiencies and expect improvement to its customers
- Local fleet market and the ELD expected to be one of the growth engines of the company
- Enlarging product portfolio to target the additional segments in the MRM market

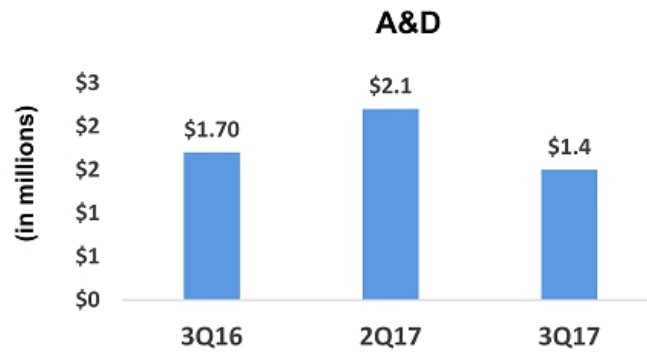

Aerospace/Defense

- Continued reliance on missile defense systems supports demand for our missile defense offerings
- Expect potential orders from The Indian market resulting from the Teaming Agreement with a Indian Aerospace & Defense company
